

Together we can stamp out fraud

NHSScotland Counter Fraud Services (CFS) provide a full service to NHSScotland (NHSS) through a centrally based, professionally qualified team of specialists dedicated only to counter fraud work.

Working in partnership with other NHSS organisations, staff and professional associations, we have successfully delivered savings to the NHS in Scotland.

Our ultimate aim is to support and improve the services of NHSS helping to ensure that money is deployed for the public good in the effective delivery of frontline services.

With your help, we can work together to stamp out fraud in the NHSS.

CFS is committed to reducing fraud and corruption in the NHSS to an absolute minimum, and to building and promoting a culture in which staff, patients, contractors and the wider public regard fraud against the NHSS as totally unacceptable.
